

Dear Mr. Salvatore Parano,

I would like to express my gratitude for our meeting last week at your company's office. It was interesting and very productive.

As I mentioned previously, we are looking forward to our cooperation and would be delighted to welcome you at the **Foreign Investors Meeting that will be held 19<sup>th</sup> March in Kostanay**. Program of the meeting is attached to this letter.

During the meeting, the possibilities of implementing investment projects in various sectors of the manufacturing industry (engineering, agro-industrial complex, building materials, etc.) will be discussed. Also, projects on digitalization of agriculture will be considered.

Cooperation between Kazakhstan and Italy is expected to grow rapidly and this is a fantastic opportunity to undertake investment projects in Kostanay.

Kostanay is the fast growing industrial and agrarian region. Our region is rich of natural resources and an impressive manufacturing capacity. We also have open opportunities for entering the Russian and Chinese markets.

Administration of the region is making it very easy to locate or expand business in Kostanay and is very supportive of new partnerships. Investors in Kostanay are provided with investment subsidies.

We will be pleased to host you in Kostanay and I am ready to personally meet with you and solve all emerging issues.

Looking forward to our cooperation.

Yours sincerely,

**Meirzhan Myrzaliyev**
